

2025 PRMS

Number of people trained by CGIAR, with the aim of leading to changes in knowledge, attitude, skills and practice, i.e. behavior.

Section (* = Mandatory)	Response	Guidance	Additional references
*Number of people trained	Female (text box to enter quantity) Male (text box to enter quantity) Non-binary (text box to enter quantity) Unknown (text box to enter quantity)	If gender disaggregated data is not available, please indicate the number of people trained in the "Unknown" field. If the number of trainees in a workshop/training reported in the past (in 2022, 2023 and/or 2024) is to be updated in 2025, the number should be updated cumulatively, combining the previously reported number of trainees with the new number of trainees.	
*Length of training	Short-term (<3 months) Long-term (>3 months) PhD Masters Other	Both long-term and short-term training programs must be completed before reporting (to avoid reporting the same trainee multiple times across years).	
Delivery method	Virtual/Online In-person Blended (in-person and virtual)	Ensure that your selection for geographic location matches the selection for delivery method. - For virtual/online settings, geographic selection is optional. Either no geographic selection is made, or the location is chosen based on the target location of the output, if applicable. - For in-person, a geographic selection should be made. - For blended, a geographic selection should be made based on where the majority of in-person training took place.
