

2025 PRMS Reporting - Innovation use (Outcome)

Number of Innovation Packages designed and assessed for their Scaling Readiness and current innovation use.

Note that to report Innovation Use, the core innovation must be reported in the PRMS as an output that has been QA-ed

Number of individuals/actors making use of and innovation (or package). May be further disaggregated by gender or youth status.

Number of individuals/actors benefitting directly from the innovation (or package). May be further disaggregated by gender or youth status.

Other quantitative measure of innovation use (e.g. area of land, or other).

PRMS Reporting Tool

Yellow = new or updated for 2025 reporting

Red: indicates links to additional or more specific guidance.

Section (* = Mandatory) Non-IPSR pathway	Response	Guidance	Additional references
*Current core innovation use in number of users that can be supported by evidence (within the reporting year)	<p>Specify individual users (How many - disaggregate by sex and age if applicable)</p> <p>Farmers/(agro)pastoralist/herders/fishers</p> <p>Researchers</p> <p>Extension agents</p> <p>Policy actors (public or private)</p> <p>Other: _____</p> <p>Organizational user type (How many)</p> <p>NGO + subtype</p> <p>Research organizations and universities + subtype</p> <p>Organization (other than financial or research)</p> <p>Government</p> <p>Financial Institution</p> <p>Private company other than financial</p> <p>Public-private-partnership</p> <p>Foundation</p> <p>Other: _____</p> <p>Other quantitative measures of innovation use (e.g. # of hectares/ projects)</p>	<p>The numbers should reflect the current innovation use that can be supported by evidence.</p> <p>Add information for as many as applicable.</p> <p>CGIAR follows the United Nations definition of 'youth' as those persons between the ages of 15 and 24 years.</p> <p>If age disaggregation does not apply then please apply a 50/50% rule in dividing women or men across the youth/non-youth category.</p> <p>The numbers for 'youth' and 'non-youth' equal the total number for 'Women' or 'Men'.</p>	Provide evidence.
*Estimation of total USD-value of investment by CGIAR Programs during the reporting period	Total USD value (in-cash + in-kind)/This is yet to be determined	Innovation development team estimates the total investment (in-cash + in-kind) in innovation development made by the leading Program and the contributing Programs during the reporting period. - Includes Program funds allocated to CGIAR and/or partners.	
*Estimated total USD-value of investment by CGIAR W3/ or bilateral projects during the reporting period	Total USD value (in-cash + in-kind)/This is yet to be determined	Innovation development team works with W3/ bilateral projects to estimate the total (co-) investment (in-cash + in-kind) in innovation development made by each of the contributing W3/ Bilaterals during the reporting period	
* Estimated total USD-value of (co-)investment by partners during the reporting period	Total USD value (in-cash + in-kind)/This is yet to be determined	Innovation development team works with partners to estimate the total (co-) investment (in-cash + in-kind) in innovation development made by each partner during the reporting period
